Stourbridge branch

Little Hands
Curious minds, inspiring the future.

Our Stourbridge branch, which opened in 2013, has a wealth of inspiring natural environments for your child to explore. We are conveniently located just outside of Stourbridge town centre, on Hagley Road, making access to multiple transport links and your commute simple and straightforward.

Our learning environments are incredibly well-equipped for children from birth to five years, and are set over two spacious floors. Both floors provide bright, airy rooms and multiple flexible spaces for up to 88 children each session.

The dedicated rooms for children from birth to two years and two to three years are based on the ground floor. They each have direct access to our natural outdoor environment where every child will find an abundance of sustainable, natural outdoor equipment. The flexibility of our rooms offers children the option to move freely between environments throughout the day, supported by their key person. Our pre-school is located on the first floor. The large free-flow learning environments captivate children, and inspires their desire to play, learn and explore meaning they are extremely well prepared for their next stage of education.

In addition to dedicated rooms for each age group, there is a specially deigned sensory room with calm and comforting areas for children to relax, rejuvenate and re-charge whilst learning through their senses. This space is particularly supportive for children who are still building relationships with staff and their peers.

Our fees

Effective from 1st April 2025

Sessions

Full day (7.30am-6pm)	**£80.00**
Half day (7.30am-1pm)	**£48.50**
Half day (1pm-6pm)	**£48.50**

Please speak to a member of our team for further details about funded sessions, as well as costs for additional hours and essentials and extras.

"Both management and staff have been outstanding from the start of our daughter's journey at Little Hands Daycare. She has built exceptional relationships with staff, especially her key person. Since starting nursery, her development and progress has been breathtaking. We are so thankful we chose such an amazing nursery for her to attend."

Parent of a child (2024)

Medication

Little Hands
Curious minds,
inspiring the future.

At Little Hands, we ensure that each child receives care that meets their individual needs. We understand that sometimes medication may be prescribed and will need to be taken at nursery. However, in order to keep each child safe, we have procedures in place to ensure safe administration. Below are some of the ways in which we ensure this is the case. Medications may only be used for the child whose name appears on the medicine; this includes emergency adrenaline injections. Parents must give prior written permission for the administration of medication. Children must not be given any medication until they have been in the setting for at least 4 hours. Medicines must remain in their original container and under no circumstances be decanted into alternative containers. Little Hands Daycare are unable to administer medication that has not been prescribed by a medical professional. For example, Calpol or children's paracetamol cannot be administered in the event of teething or a cold and can only be given in emergency circumstances such as a high temperature.

Security

Little Hands is fully secured to protect all of the children in our care. Access to the setting is available from the rear gate on the car park. Parents and visitors must walk through the sign posted gate, past the fenced passageway until they reach the side entrance door. All parents and visitors must then ring the bell located at the side door, where a member of staff will greet on entry and admit them into the building. Only authorised persons detailed on children's forms, who staff are familiar with, will be allowed to gain access to the setting. In order to ensure maximum safety and security for children, staff and parents, only staff members must admit people in to the building. Risk assessments are located in all areas of the nursery including the outdoor environment. Moreover, our staff undertake regular Paediatric First Aid training so that appointed trained staff are always available throughout the day to deal with any medical incidents or emergencies. Our garden is fully secured by robust fences and gates around the whole outdoor area, giving parents peace of mind that their children are kept safe and secure when in our care. In addition to this, the building has a regularly monitored fire detection system and emergency lighting, and management plan regular fire drills so that children and staff members in all rooms can become familiar with the procedures in place in case of an emergency..

Parking

Safe parking is available at the rear of the building situated on Hagley Road. There are eight car-parking spaces allocated and these spaces are reserved for parents only. As you are aware Hagley Road is a busy main road, and for this reason we request that parents use these allocated spaces when dropping off and collecting their children from nursery. With safety in mind, please carefully consider your family's safety if choosing to use the public car parking spaces situated opposite the building; please ensure that the pedestrian crossing located on the Hagley Road, adjacent to St. John's Road, is used at all times when parking and travelling to the setting. When using the nursery car park, we request that all parents ensure that the traffic turning into the car park receives right of way, thus meaning parents wanting to leave the car park will have to give way; this is to avoid traffic dangerously reversing onto Hagley Road. Please may we also request that you do not block the driveway of other businesses, or other cars in, at any time in order to prevent congestion or delay others from leaving the car park. There is sufficient manoeuvring space for cars to enter and leave the car park.
